David,

Great Basin Unified APCD has submitted a complete 2011 AQS data certification package; I will file a copy for our regional records. Please review as time allows.

Thank you,

Fletcher

Subject: Due May 1, 2012: Ambient Air Monitoring Data Certification for 2011

Dear AQS Contact,

This e-mail and its attachment are being provided to support the annual certification process for 2011 calendar year ambient air data submitted to AQS. By regulation, monitoring reporting organizations are required to certify their data (with few exceptions) by **May 1, 2012**. In most cases, required files include

1. Certification letter with the statement indicating that (1) the ambient concentration data *and the quality assurance data* are *completely submitted to AQS*, and (2) the ambient data are accurate to the best of his or her knowledge *taking into consideration the quality assurance findings*.
2. AQS AMP450 report for CO, NO₂, SO₂, ozone, lead, PM₁₀, and PM_{2.5} monitoring data
3. AMP450NC report for other pollutants (includes 5-minute SO₂)
4. AQS AMP255 report for each monitor whose data are being certified

Electronic versions (PDF format) of all required files are highly preferred. If you wish to send them by mail, send all required files to

Office of the Regional Administrator Jared Blumenfeld (blumenfeld.jared@epa.gov)
